Are you interested in the sustainable use of coastal resources?

The Mississippi-Alabama Sea Grant Consortium (MASGC) is committed to broadening participation in coastal sciences.

The Coastal Science Fellowship for Minority Undergraduates will allow students to work with scientists, K-12 educators, extension specialists, environmental attorneys or communication specialists.

Fellows will gain real-world experience to better prepare them to enter the workforce or pursue a graduate degree.

If selected, they will work with mentors to develop fellowship projects.

Project topics may include:
- Environmental literacy and workforce development.
- Healthy coastal ecosystems.
- Resilient communities and economies.
- Sustainable fisheries and aquaculture.

Eligibility
Juniors from Historically Black Colleges and Universities in Alabama and Mississippi are eligible to apply. MASGC seeks to involve students from groups that are underrepresented in sciences.

Commitment
10 weeks beginning in May. Start date is flexible.

Financial support
Each fellow will receive financial support:
- $6,000 allowance for room and board.
- $1,500 for tuition for up to three credits.
- $5,000 stipend at the end of the fellowship.

Application
A competitive application process will select up to three fellows. Applications are due Feb. 28, 2020.
